

Reminders for Creating Quillo Videos

- Videos should be no longer than **60-seconds total**
- **.mov format** (typical for Apple/iOS products) or **.mp4 format** (typical for Androids/PCs)

Content Resources

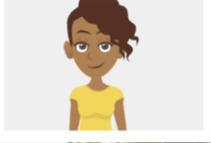

Below is a list of resources to consider for creating content. While Quillo is not officially endorsing any of these products, this list includes suggestions we've used in the past. You aren't required to use these; they are just a starting point. Find what works for you. **Most computers also come with user friendly video editing software that is pre-loaded onto your computer.** Other suggestions are welcome!

Please note, cost estimates are from July 2018. The final cost may change if you are subscribing for a monthly or annual subscription. Please look closely at the website to determine what is best for you.

Powtoon 	https://www.powtoon.com/premium/	Create animated videos. YouTube Guide (6min)	\$19-\$99/month (billed annually) for advanced features. While there is a free version, it includes branding and does not appear to be available to download as Mp4, which is required for Quillo.
Unsplash	https://unsplash.com/	Free stock photos, searchable by theme and keyword.	Free.

WHAT	LINK	NOTES	COST
Vyond 	https://www.vyond.com/	Create animated videos using templates. Characters can be created and changed to “look like” people in your community, or just to have a diverse cast. Voice overs and music can be added. YouTube Guide (5min)	Free trial. \$39-\$89/month. \$39 includes Vyond logo.
Transferring Documents			
WeTransfer	www.Wetransfer.com	Great space to send videos as an alternative to sending by email or uploading to Dropbox/cloud storage. All that is needed is your email and the recipient’s email. The catch is that the video must be downloaded by the other person within 7 days.	Free , up to 2 GB at one time. If you are sending more than 2 GB at one time, you can send multiple batches. As a point of reference, 2 GB is roughly 10 one-minute videos, depending on their size.
